PRESS RELEASE

What's new on the desk.

MacroLens · Macro-to-revenue intelligence · Colombo Stock Exchange

September 9, 2026

RELEASE 01 · WHAT'S NEXT

Two ways to talk to the desk.

LIVE NOW

Chat with the expert

Name, email, question, and your mail client opens pre-addressed to desk@macrolens.lk. Nothing stored on site. A person answers.

IN DEVELOPMENT

AI desk chat

Ask the desk in plain language. Answers come only from MacroLens data, with the publisher and date of every figure attached.

MACROLENS

Macro prints in. Revenue reads out.

MacroLens maps eleven Sri Lankan macro indicators onto twelve CSE sectors: direction, magnitude, and the lag before it reaches the income statement.

11
macro indicators

12
CSE sectors

28
listed peers

67
CBSL issues backfilled

RELEASE 02 · HISTORY

History, backfilled to 2020.

Indicator history runs back to 2020 where the publisher archive allows: the COVID shock, the 2022 crisis, and the recovery in one series.

JAN 2020 → SEP 2026

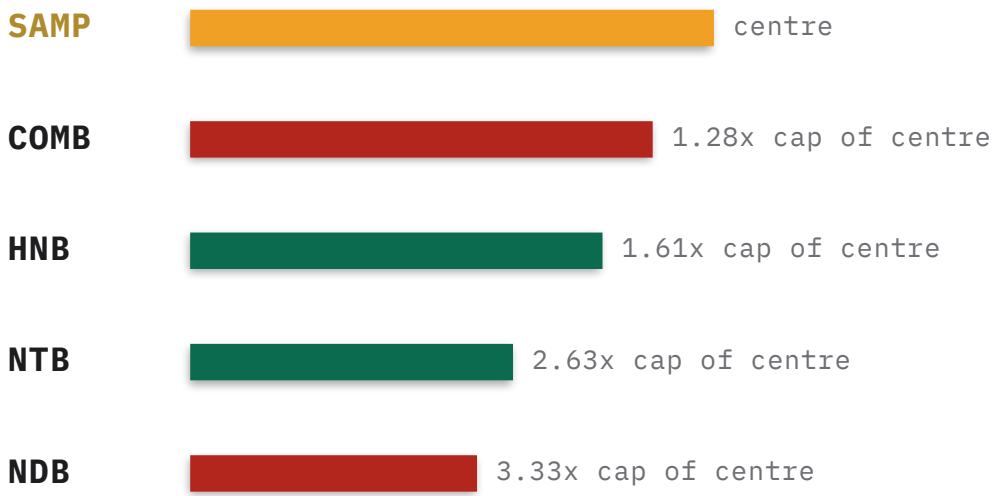

Sources: CBSL MEI, 67 issues, May 2020 on · DBnomics IMF IFS · FRED DCOILBRENTEU · CBSL on-year. * reserves lag one month.

RELEASE 03 · PEER MAP

The peer map, rebuilt as a ranked ladder.

No more bubbles. The centre stock pins to the top in amber; peers rank below it by market cap. Bar length is square-root-scaled to cap, fill tints with the day's move, and every row states the size relationship in plain numbers.

Illustrative proportions. The live map renders 28 listed peers from current CSE data; click any bar to re-centre.

RELEASE 04 · THE DESK ITSELF

A sharper desk.

Bolder headings

Every section header went from 10px to 14px semibold.

Real search

Indicators, sectors, all 28 peers, every board scanned live, brief and FAQ. In the nav and the hero.

Live port feed

VesselFinder's embed retired; the shipping board now renders on aisvesseltracker.com, centred on Colombo.

macrolens.lk

Every macro print moves somebody's revenue line.
